Dear Mrs Silbury

I have just heard of your dear husband's death. It has fairly staggered me, I made sure that he was coming through it all, safe. What a dreadful thing this war is, why cant they put an end to it.

I must offer my deepest sympathy, but I know all the sympathy will not bring him back.

I am off again next week, and hope and trust I will come through safe. It makes one feel inclined to desert, when you hear the casualties. I know how the wife will worry, when I go, but I have been very lucky so far. Hoping you will have the strength to bear your great loss.

I remain
yours sincerely
